

Knoxville Utilities Board
Wastewater Division

WASTEWATER NONRESIDENTIAL
RATE SCHEDULE

Availability

Service under this rate schedule shall be available to any commercial or industrial customer.

An existing customer or applicant for service under this schedule may be required to execute a contract specifying, among other things, a minimum bill and minimum term for service under this schedule.

Rates

The Wastewater Service Charge shall be calculated using the applicable rate tables provided below, based on the customer's water meter size and monthly water usage with the following exceptions:

- 1) For customers whose wastewater discharge volumes are metered separately from their water usage, the metered wastewater discharge volumes will be used to calculate Service Charges under this schedule. The meter size used to calculate the Additional Monthly Charge under this schedule will be the largest equivalent water meter size as determined by KUB.
- 2) If neither the customer's water usage nor wastewater discharge volumes are metered, the average water usage and water meter size of comparable metered customers as determined by KUB will be used to calculate the charges under this schedule.

In the event more than one meter is utilized to determine billed consumption, multiple customer charges may apply. Charges will apply without regard to ownership of the meter(s).

KUB may, at its sole discretion, bill wastewater using the same rates converted to a rate per gallon for usage measured in gallons: 1 Ccf equals 748 gallons.

Inside City Rates are for wastewater service provided to premises entirely within the corporate limits of the City of Knoxville. Outside City Rates are for wastewater service provided to premises entirely or partly outside the corporate limits of the City of Knoxville.

<u>Monthly Customer Charge</u>	<u>Inside City</u>	<u>Outside City Industrial Park</u>
5/8" meter	\$ 36.00	\$ 40.00
